

At Kuhn Dental Associates, Your Smile Can Bypass Standard Whitening, For The WHITEST WHITE Ever!

# EXTREME WHITENING

Before

After Standard Whitening Process

EXTREME WHITENING!

This section contains three photographs of a patient's teeth. The top-left photo shows the 'Before' state with a yellowish stain on the lower central incisor. The bottom-left photo shows the 'After Standard Whitening Process' result, where the stain is still present. The right photo shows the 'EXTREME WHITENING!' result, where the tooth is significantly whiter and the stain is gone.
